millions of transactions

2,1 MLN

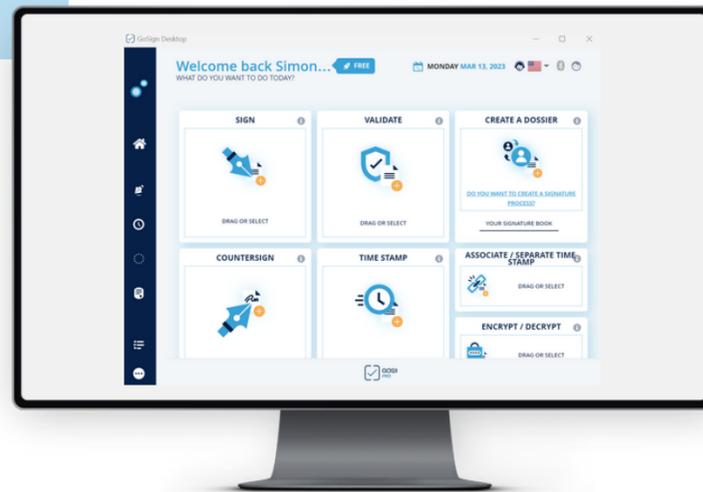

Users leverage
on Gosign everyday

1,4 BLN

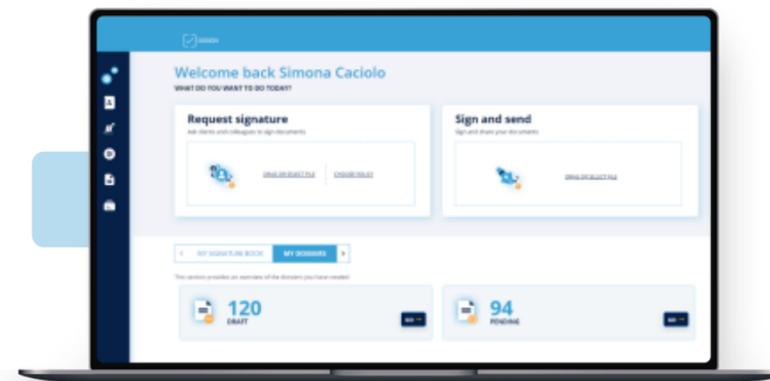

of signature transactions
in 2023

Live the omnichannel user experience

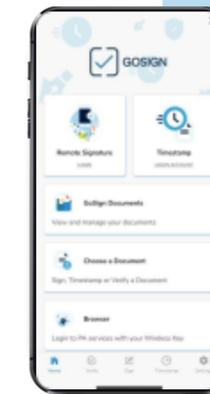

Remotely or in presence, it doesn't matter. With Gosign the digital transformation is unlocked!

- Sign online and offline from your desktop
- Sign multiple files or entire folders in one click
- Add Timestamps to extend documents' legal value over time
- Desktop version for windows, macOS, linux

- Create your desired signing process
- Manage users, roles, groups, and policies to be used within approval processes
- Engage users with all the advanced tools: multiple sending, reusable templates

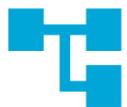

- Sign documents, add time stamps, validate the signature
- Participate to approval process and sign the document received
- Realize in-presence signature with your customers

Giving users all the features they need

SIGN FILES

in any format: .p7m, .pdf and .xml
on your desktop, online, and on your
smartphone

EASILY CREATE

any kind of signature workflow:
select the documents to be signed, define
signature position, set the recipients

HIGHEST LEVELS OF SECURITY

thanks to our privacy level options

APPLY TIME STAMPS

to your documents and dossiers,
even on already signed
documents

USE YOUR OWN EXISTING E-SIGNATURE

on device, p12 on your laptop or activate a
new Qualified Electronic Signature

VERIFY SIGNATURE VALIDITY

applied with any certificate,
and download the validation report

SHARE YOUR FILES

via email, qualified eDelivery
or other third-party applications

USERS CAN SELECT THE TRUST LEVEL

for any recipient with the possibility
of extending this trust level for
the entire process

Enhance the legal value of your transactions

Do you need your documents signed
with the guarantee of the highest legal value?

Gosign allows you to get an advanced or Qualified Electronic Signature from anyone, also from recipients who have no signature certificate yet. This is possible thanks to our on-the-fly identification which gives the possibility to get a one-shot certificate in just a few minutes.

- ✓ **Optimize the signature experience with a full online service identity verification**
- ✓ **Keep your business compliant and secure**

THREE TYPES OF ON-THE-FLY IDENTIFICATION

Qualified Electronic Signature with Video Identification

to your documents and dossiers,
even on already signed documents

Qualified Electronic Signature with SPID

Get a QES through an identification
by the authentication with your SPID.
(Only for Italian context)

Advanced Electronic Signature through identification via selfie

Get an AES through an identification
by an automatic liveness detection process.

Gosign meets the needs of companies in every market

Whether your company belongs to the Automotive, Telco, or Pharmaceutical Industry, Gosign allows the simplification of internal and external processes, leverage mobile devices, and access people, anywhere at any time.

PHARMA

Digitize your transactions and approvals processes

One solution, many possible applications

INTERNAL APPROVAL PROCESSES

to shorten distances between company departments located in different geographical areas

B2B — BUSINESS TO BUSINESS

to dematerialize procurement processes and manage contracts with suppliers and partners

B2E — BUSINESS TO EMPLOYEE

to dematerialize the relationship with employees and manage HR processes

B2C — BUSINESS TO CONSUMER

to interact with clients and remote contract subscription

GOSIGN CAN BE EASILY PLUGGED WITHIN ANY EXISTING IT INFRASTRUCTURE.

The solution comes with standard connectors for the most common IT systems and an Integration Layer (APIs) for other custom applications.

The total economic impact of Gosign

Tinexta Infocert commissioned Forrester Consulting to conduct a **Total Economic Impact (TEI)** study and examine the potential return on investment enterprises may realize by implementing Gosign.

177%

Return On
Investment

13,2 months

Payback
Period

55%*

Increased
Efficiency

*Forrester quantified benefits, costs, risks, and flexibility based on interviews with a Tinexta Infocert customer.

The examined customer, by adopting Gosign, passed from a partially digital documents' subscription process to an end-to-end fully trusted digital approach.
